Our quality certifications:

About Us

This is one stop solution to your all fabrication & sheet metal cutting requirements. We are pleased to introduce ourselves as a leading industry engaged in manufacturing of sheet metal fabrication, machining & assembly works, vessel fabrication, shell & tube heat exchanger, process equipments.

We are a manufacturing & supplying sugar industry equipments, vessels & pump shell assembly, stator/rotor compression plates-frames & end shields, through laser cut for wind energy, construction machinery & equipments, automobile sheet metal components & material handling equipments.

We are team of experts constantly working to meet quality standards of all Indian and overseas clients. We have all accreditations right from management system ISO 9001 to all stringent international quality norms from reputed certifying agency.

Special purpose products development ?

Our end over is complete one stop quality solution provider for our customer satisfaction.

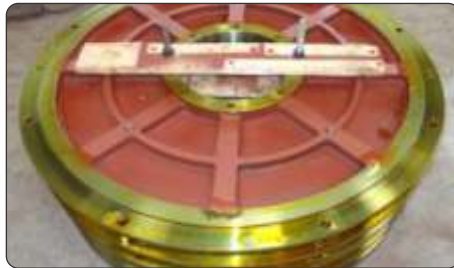

Facilities

-  **Laser Cutting:**
 - Make: Trumpf
 - Wattage: 3.0 Kw
 - Bed Size: 1500 x 3000mm
 - Max. cutting: 16 mm for MS, 8 mm for SS, 5 mm for Al
-  **CNC Bending:**
 - Make: Hindustan Hyd.
 - Capacity: 110 Tonne
 - Bed Size: 3000 mm
 - Max. Bending: 4 mm for full length
-  **Hydraulic Shearing Machine:** Variable rake angle Hydraulic shearing machine for precision cutting.
-  **Welding Stations:** We do have latest technology microprocessor based, digital power source with three phase MIG / MAG / FCAW welding inverters.
 - 1) 600 mm 2) 400 mm 3) 250 mm
-  **Oxy-acetylene metal cutting facilities.**
-  **Drilling, grinding, press etc.**

Our Manufactured Products

We are manufacturing CE certified products

Segments to which we cater

We are catering to following sectors:

- Construction
- Infrastructure
- Railways
- Material Handling Equipment's
- Sugar
- Cement
- Power
- Non-conventional Energy Sector
- Waste Management
- Heat Recovery
- Mining
- Pulp & Paper, etc.
